Our Question

- Is there a causal relationship between having **health insurance** and **obesity**?
- What are the **possible factors** that contribute to this relationship?

Why do we care?

- Increasing obesity rates is a worrying trend!
- Our personal interest

The Data

- Oregon Health Insurance Experiment Dataset
 - 10,000 **low-income** individuals selected for Medicaid program
 - Based on a **Randomized Control Trial (RCT)**

Techniques

- ATE/LATE calculation
- Linear Regression Analysis
- Neural Networks (maybe) 😊
